#### REGARDING REYKJAVÍK

As the world’s northernmost capital city, Reykjavík is situated just two degrees south of the Arctic Circle.

The largest and most important nesting grounds of the Atlantic puffin — an estimated 60% of the entire world puffin population — is found here.

It is home to the National and Saga museums, tracing Iceland’s Viking history. The striking concrete Hallgrímskirkja church and rotating Perlan glass dome offer sweeping views of the sea and nearby hills. Exemplifying the island’s volcanic activity is the geothermal Blue Lagoon spa, near the village of Grindavík.

Walking distance from the hotel is Tjörnin (The Pond), one of Iceland’s most beloved features radiating a delicate balance between urban development and enchanting nature.
